Lynne Bechervaise Ceramics
Artist Profile

Lynne has been developing her sculpted boats, peopled with figures, animals, birds, fish & plant forms.

They are informed by her experiences with indigenous people, human history of migration, her studies, inner journeys and dreams.

Each vessel is unique. They are stylized, archetypal and representative of rites of passage.

Her work also shows our connection to all our relations, wingeds, 4 leggeds, swimmers, all growing things, and earth herself.

Works currently at Birds Gallery, Kew.
