John Wilcox Sculpture

Artist Profile

Born 1959 Melbourne, Victoria.

Living in Aireys Inlet, amongst the rawness of nature, Johns’ work is influenced by the natural flow of the wind, elements of weather and its effects on the sea.

Years of surfing have reinforced the ingrained understanding of the strengths of simple line and flow, its ability to move the eye and reflect movement.

Working with rocks, wood and steel, Johns’ work merges elements of found objects with hand formed shapes to create pieces that have a simple yet strong flow and design.
