Nicolette Kyberd Textiles

Artist Profile

Having worked in the creative industry in London for over 20 years Nicolette moved to Australia for love and is happy to say it has lasted well! She used to represent artists commercially for many years and also commission art but always longed to have the time to produce something tangible herself. Engraved Stone Co is a fairly new venture, her turn to create something classic and tactile.

The stones and pebbles are designed to bring a smile and capture memories, giving someone an engraved stone is a forever gift. Most stones are to commission, to mark a wedding or memorable occasion, place names, a passed beloved pet, or someone’s special garden.
